

## **IN THE SPECIFICATION**

Before the paragraph beginning at page 1, line 2, insert the subtitle:

### **FIELD OF THE INVENTION**

Before the paragraph beginning at page 1, line 10, insert the subtitle:

### **PRIOR ART**

Before the paragraph beginning at page 1, line 25, insert the subtitle:

### **PROBLEM TO BE SOLVED**

Please replace the paragraph beginning at page 2, line 8, with:

### **OBJECT OF THE INVENTION**

It is an object ~~the objective~~ of the invention to avoid the above mentioned disadvantages and to find a suitable vehicle with an air-conditioning system, which, through less manufacturing costs and reduced space requirements, prevents transmission of vibrations to the heat exchanger of the air-conditioning system and consequently to the body of the vehicle.

### **BRIEF SUMMARY OF THE INVENTION**

Before the paragraph beginning at page 3, line 25, insert the subtitle:

### **DETAILED DESCRIPTION**

Please replace the 3 paragraphs beginning at page 3, line 27, with:

Figure 1: A very simplified, schematic diagram of the ducting of an air conditioning

system, which is arranged in the engine compartment of a vehicle, ~~vehicle.~~

Figure 2: A perspective drawing of two pipe conduits of ducting of an air conditioning system as per the conventional technology, ~~technology.~~

Figure 3: A perspective drawing of two pipe conduits of ducting of an air conditioning system as per the invention and ~~invention.~~

And

Figure 4: A perspective drawing, comparing one pipe conduit each as per conventional technology and as per the invention.
